BIOGRAPHY

Name-Surname:	Mr.Yodthong Mensin
Date of Birth:	January 17, 1979
Place of Birth:	Phitsanulok, Thailand
Home Address:	118 Moo.1 Tumbon Wattprich Amphur Muang, Phitsanulok 65230
Office:	School of Renewable Energy Technology, Naresuan University, Phitsanulok, Thailand

Institute Attended

2001-2004	B.Sc. (Computer Science) Naresuan University, Phitsanulok, Thailand
2007-2008	M.Sc. (Information Technology) Naresuan University, Phitsanulok, Thailand
2010-2016	Ph.D. (Energy and Environment) Chiang Mai Rajabhat University

Work Experiences

2001	Energy Park Project supported by DEDE
2001	Increasing Efficiency of the Solar Tunnel Dryer by concentrating collector for Agriculture Product
2006	Researcher, "Dissemination of Solar Dryer Technology for Community"

2006 – 2009	Researcher, "International Cooperative Demonstration Project for Stabilized and Advanced Grid-connection PV Systems in Thailand (Demonstrative Research Project on Micro Grid Stabilization)," Supported by NEDO, Japan
2007 – Present	(Microsoft Certified Professional (MCP) for installing, Configuring and Administering in Microsoft Windows XP
2007	Development of software for demand and supply electric source concept for microgrid system
2008	Development of Software for Real-time renewable energy monitoring for reporting in website of SERT
2009	Development of Software for biomass potential energy report in the north of Thailand
2010 - 2011	Researcher, Development of center for solar hot water standard testing
2011	Researcher, Appropriateness of Electricity Generation by Renewable Energy on Kood and Mak Islands, Trat Province
2013	Researcher, Smart Grid: Future network for Thailand distributed power generation

2014	Development of Application tool development for energy potential analysis and technology selection suited with RE in target area
2015	Researcher, Energy and exergy analysis of stratified thermal storage tank combine with solar flat plate collector
2015	Development of software for power flow exchange algorithm model in smart microgrid system
2016	Researcher, Comparative Analysis of Exergy and Efficiency for Stratified Thermal Storage Tank with Solar Flat Plate and Evacuated Tube Collectors
